

Diary Made Easy

Insider is an emotion-emphasized diary app.

Inspired by the Pixar movie: Inside Out, fully.

I cannot express how pleasantly surprised I was the first time I appreciated the creativity of this movie.

Sadness, an emotion that I had always rejected and disliked in the past, is actually not evil, same goes to Anger, Fear and Disgust.

The app is not pixel perfect now, please contact me in anyway you feel comfortable.

Insdier Developer

Wilbur Wong
